

22 July 2008

To all Crammix Stakeholders

Crammix Bricks are situated on a sought-after portion of land for future development. Its is our intention to obtain the relevant zoning in order to prepare for the longer term and we have therefore submitted the necessary application.

As part of this re-zoning process, signboards are erected at the site informing the public of the intention, and inviting their participation.

For us, it remains BUSINESS AS USUAL and production of our current product range will continue unaffected.

Crammix's management team would like to assure all stakeholders of our long term commitment to brick making, and are at the planning stage for relocation and re-commissioning of a brick making facility at an appropriate site with clay reserves. Enquiries from our friends in business or any other interested party in this regard would be welcomed.

Yours sincerely

**CLIVE ARCHER**

**MANAGING DIRECTOR**
